Successful performance at this level indicates that a candidate has the skill level required to lead a group of 6 competent* paddlers (not including themselves), or as determined by deployer (e.g. centre or club) operating procedures, in appropriate locations, up to moderate conditions**. The emphasis is on the application of strokes to achieve suitable techniques and boat control in real situations and the candidate's ability to judge the conditions, the standard of the group and make appropriate decisions about the planned journey along with the need to modify plans as required.
